

Attachment A - Forest Service Wildfire, NEPA, and Salvage Summary

Fiscal Year	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2007-2016
Number of Fires ¹	63	64	53	33	66	79	56	56	127	110	707
Total fire acres on NFS ²	1,751,118	1,326,893	549,108	211,327	1,489,029	2,411,413	1,141,353	741,465	1,587,843	1,038,686	12,248,235
High severity acres on NFS ³	842,658	368,595	268,944	76,192	619,020	809,720	513,957	265,045	489,668	397,654	4,651,453
Number of NEPA decisions identified ⁴											129
Acres of salvage planned in NEPA ⁵		218	17,255	2,134		14,010	22,761	28,937	13,809	13,264	112,388
Number of NEPA decisions litigated ⁶	1	2	5	1	1	0	3	3	2	4	22
Litigation cases won by USFS ⁷	0	1	3	1	1	0	1	3	1	1	12
Litigation cases lost by USFS ⁸	1	1	2	0	0	0	1	0	1	1	7
Litigation cases pending ⁹	0	0	0	0	0	0	1	0	0	2	3
Acres of salvage reported accomplished ¹⁰	328	2,665	8,125	3,464	8,774	6,916	11,672	19,792	16,926	21,234	99,896

¹ Fires burning more than 1,000 acres on NFS land

² Total acres inside fire perimeter on NFS land

³ Classified as greater than 75% mortality using Rapid Assessment of Vegetation Condition after Wildfire (RAVG)

⁴ Identified by fire salvage keyword search in PALS (Planning Appeals and Litigation System) or reported with sale activity records in Forest Service systems FACTS or TIM. Some from PALS not included in report if inadequate detail available. These decisions include authorizing fire salvage timber sales and timber sales to remove hazard trees along roads and facilities after a fire. This includes NEPA decisions made from fiscal years 2007-2016.

⁵ Approximate acres available for only 49 decisions identified. Some of these decisions are based on a NEPA categorical exclusion for salvage that is limited to 250 acres. Many salvage activities are authorized using a NEPA categorical exclusion that does not require documentation of the decision. These decisions and associated acres are not accounted for here.

⁶ All fire salvage sale project lawsuits filed in fiscal years 2007 through 2016.

⁷ Litigation cases where the court ruled favorably for the Agency. Projects litigated in Court often result in substantial delays for project implementation and may affect the ability of the Agency to sell salvage sales

⁸ Includes cases lost by court decision, decisions withdrawn by the agency, or where parties agreed to settlement.

⁹ Litigation cases where the court has yet to rule.

¹⁰ Salvage harvest activity records identified as awarded in Forest Service Activity Tracking System (FACTS) by GIS analysis of fire perimeters.

Disclaimer: Only the litigation data is believed to be 100% complete and accurate. Some discrepancies exist between fire data in different systems of record. Some salvage sale data in TIM and FACTS are difficult to identify as such depending on level of detail recorded and presence or accuracy of accompanying GIS data. NEPA data may also be difficult to identify as fire salvage and older projects may not be recorded in PALS.
