## 2.0 INTRODUCTION

This chapter sets out the interagency requirements outlined by the National Wildfire Coordinating Group (NWCG) in the National Incident Management System Wildland Fire Qualification System Guide, PMS 310-1, additional interagency requirements outlined in guides referenced in Zero Code of the FSH 5109.17, and additional Forest Service requirements for incident and prescribed fire management positions.

For titles and position codes of identified Technical Specialists, see the Incident Qualifications and Certification System (IQCS) Web site: <https://www.nifc.gov/IQCS/>

The complete list of 4-letter position job-code identifiers, which are approved by the NWCG Position Naming Board, are maintained on the IQCS Web site: <https://www.nifc.gov/IQCS/>.

Direction related to training courses, delivery, equivalency, and instructor qualifications can be found in chapter 3 of this Guide.

The National Fire and Aviation Executive Board developed the Interagency Fire Program Management Qualifications Standards and Guide that contains minimum qualification standards for key fire and aviation management positions. Direction related to competencies for fire and aviation management positions is contained in chapter 4. Additional information can be found at <https://www.ifpm.nifc.gov/standard/ifpmstandard.htm>.

## 2.1 QUALIFICATION FOR INCIDENT AND PRESCRIBED FIRE POSITIONS

This section sets out the additional requirements for skills, training, and prerequisites for Forest Service employees for the incident and prescribed fire management positions. Qualifications for each position include the minimum acceptable levels of training, experience, physical fitness, and/or currency requirements (Ch. 2) except where noted in this Guide.

Job descriptions and duties for these positions are listed in the Wildland Fire Incident Management Field Guide, PMS 210 or in the interagency guides and agency directives listed in Zero Code of the FSH 5109.17.

1. The successful completion of a position task book during an appropriate number of evaluation assignments is the indicator of qualification. For positions that do not have a position task book, the Forest Qualification Review Committee shall review and recommend to the certifying official an individual's certification and qualification, based on objective factors such as performance evaluations and visual observation of performance of duties of the positions.
2. Personnel who have learned skills from sources outside the wildland fire management curriculum may not be required to complete specific NWCG courses in order to qualify in an incident and prescribed fire management position (sec. 3.2 - Course Equivalency).

3. Personnel currently employed by state agencies or other non-Federal cooperators (such as rural, county, and city fire departments) participating in cooperative fire management efforts, must be compliant with the minimum position requirements specified in the NWCG National Incident Management System Wildland Fire Qualification System Guide, PMS 310-1.
4. Personnel hired as ADs are FS employees so they must follow qualification requirements in this Guide.
5. In relation to training, contract resources must abide by the terms and position requirements of the respective agreement they are hired under.

## 2.2 CERTIFICATION

1. All regular Forest Service personnel and cooperators employed by the Forest Service under the Pay Plan for Emergency Workers (Interagency Incident Business Management Handbook, PMS 902-1) and assigned Incident Command System (ICS) positions must be judged to be technically and physically qualified to fill their positions.
2. Qualification for a position in the NIMS/ICS organization depends on proven ability (sec. 2.1). Training, experience, and physical fitness are prerequisites for qualification. However, certification to hold an ICS or prescribed fire position is determined through evaluation of performance as a trainee in the target position (if required), or in a prerequisite assignment.

The Washington Office, Regional or Forest Qualification Review Committees shall determine when the individual is prepared to advance to the next higher level and make recommendations to the certifying official. Documentation of the recommendation and decision shall be placed in the employee's master record file (sec. 2.21).

3. Each employee's incident and prescribed fire position qualifications (including physical fitness and experience) must be re-evaluated annually by the certifying official to determine certification, recertification or decertification and a new Incident Qualification Card must be issued. This includes all Forest Service employees including Administratively Determined (AD) employees certified by the Unit Fire Program Manager.
4. Employees transferring from another Forest Service unit, NWCG partner, or affiliate agency must undergo an audit by the receiving unit's certifying official to determine certification, recertification, or decertification prior to issuance of an Incident Qualification Card. Employees that were certified by a NWCG partner agency under the PMS 310-1, may be considered "fully qualified" even if they lack Forest Service Additional Required Training listed in this guide provided they correctly met the PMS 310-1 requirements at the time when they were certified, and can show successful position performance in this position. The sole exception is the HSPD-5 and HSPD-8 requirement for IS-700 and IS-800 if required by the position. Transferring employees with open position task books

- will be required to complete all Forest Service Additional Required Training listed in the current FAQG prior to certification.
5. The Unit Fire Program Manager should ensure that a system is in place to establish priorities for training and currency assignments.
  6. A Qualification Review Committee shall be established on each unit (Washington Office, regional office, or forest) to review and recommend certification of personnel to the certifying official. At a minimum, the committee shall include the Fire Management Staff Officer, a line officer representative, Incident Qualifications and Certification System (IQCS) Administrator, and a representative from the National Federation of Federal Employees (NFFE) or other appropriate Forest Service union official, as well as representatives knowledgeable of the unit's personnel. Deliberations, rationale and decisions must be documented as appropriate to establish criteria and provide background for employee performance enhancement planning.
    - a. The Washington Office Review Committee (WQRC) shall review all individuals possessing Area Command and Type 1 Command and General Staff position qualifications, who are assigned to the Washington Office.
    - b. Regional Qualification Review Committees (RQRCs) shall review all individuals possessing Area Command and Type 1 Command and General Staff position qualifications who are assigned in that Region.
    - c. Forest Qualification Review Committees (FQRCs) shall review all individuals possessing Type 2, or lower, position qualifications.
    - d. Prescribed Fire Manager (RXM1/RXM2) and Prescribed Fire Burn Boss (RXB1/RXB2) position qualifications shall be reviewed by the FQRC.
    - e. Regional/WO Review Committees have the latitude to review all personnel within their area at any time.
  7. If an individual is serving in the designated 3-year Task Book completion period and an amendment to FSFAQG is issued, the position standards, contained in the amendment apply.
  8. If amendments to FSFAQG are issued which identify additional required training for positions, such training will not be required for individuals qualified and current for those positions at the time of amendment. There may be exceptions, examples include Homeland Security Presidential Declaration #5 (HSPD-5) which required successful completion of IS-700 for all employees, whether or not they were previously qualified. Recommendations from Accident/Incident Abatement Plans may also require training for all employees, whether or not they were previously qualified. Field units will be notified when additional training is required through a letter from the Deputy Chief of the training requirement and who it applies too.
  9. Specific training may be required by the Occupational Safety and Health Act regarding hazardous waste operations during emergency response and may be coordinated by Occupational Safety Health Administration (OSHA).

## 2.21 REFRESHER TRAINING

Refresher Training (RT) courses are required for positions that have a recurrent training requirement. The frequency of the recurrence training varies by position from annual (every year), biennial (once every two years), or triennial (once every three years) depending on the position.

RT courses are required for fully qualified as well as trainee positions, and must be completed within the specified time frame from the date the original course was completed and thereafter every one to three years depending on the position. However, in the instance of the RT-300FS (Forest Service Prescribed Fire Workshop), the biennial requirement only applies to fully qualified RXB2, RXB1, RXM2 and RXM1, and starts from the date of RXB2 certification and thereafter must be completed every 2 years.

- A-110: Aviation Transportation of Hazardous materials (Triennial following completion of A-110)
- RT-130: Fireline Safety Refresher\* (Every 13 months following completion of S 130)
- RT-273: SEAT Manager Workshop (Triennial following completion of S-273)
- RT-300: Prescribed Fire Workshop (Biennial from date of RXB2 certification)
- RT-340: HRSP Workshop (Triennial following completion of S-340)
- RT-372: Helicopter Manager Workshop (Triennial following completion of S-372)
- RT-378: ATGS Workshop (Triennial following completion of S-378)
- RT-505: Helicopter Rappeller Refresher (Annual following completion of FS 505)
- RT-506: Helicopter Rappel Spotter Refresher (Annual following completion of FS-506)
- RT-9012: Helitorch Manager Refresher (Annual following completion of N 9012)
- RT-9013: Geographic Area Medical Specialist Refresher (Annual following completion of N-9013; may be waived for one year if approved by medical doctor and IMS program manager)
- RT-9016: PLDO Refresher (Annual following completion of N-9016)
- RT-9059F: CRM 7 Skills Refresher (Tri-Annual following completion of N-9059 for ATGS, Annual for HERS)

Additional information on refresher training can be found in chapter 3, 3.13.

## 2.22 RECORD KEEPING

Beginning with the March 26, 1990, amendment to FSH 5109.17, the Forest Service requires that certification records supporting qualifications on the employee's Incident Qualifications Card be maintained. The Unit Fire Program Manager on each Forest shall ensure that certification records are maintained.

1. A file folder in paper copy format must be maintained for each employee for records related to certification in fire and aviation management positions. These records must be centrally located on the unit and readily accessible to the fire program manager. The fire program manager shall determine the centralized location of the records and provide direction to the units.
2. The contents of these folders shall include:
  - a. All relevant evidence of course completion related to position qualifications. Relevant evidence may consist of training certificates, copies of course completion rosters and/or completed Request for Training (SF-182) forms, or other third party validation that the training has been successfully completed. Documents from the course lead instructor or course coordinator, certifying that the employee successfully completed the training, are acceptable.

Only the lead instructor, course coordinator, or an individual who can validate the responder's successful completion of the training can provide third party evidence to substantiate course completion. An individual who also attended the course is not acceptable third party evidence.
  - b. Individual Performance Rating, Form ICS 226. Prior to the implementation of Position Task Books in February 1994, the Individual Performance Rating, Form ICS 226, served as evidence that the employee satisfactorily performed in a position.

If an Individual Performance Rating recommending the individual for certification cannot be located for the periods from March 1990 through February 1994, verification can be accomplished with a letter or e-mail from the final evaluator validating:

    - 1) A recommendation that the individual be considered for certification.
    - 2) A list of the incident(s) and date(s) when the final evaluation and previously recommended certification was completed.
  - c. Position task book verification (the inside front cover of task book, showing recommending final evaluator and Certifying Official's signatures and dates). If no copy of a qualifying position task book verification page can be located, verification may be accomplished with a letter or e-mail from the final evaluator validating:
    - 1) Satisfactory completion of all tasks.

- 2) A recommendation that the individual be considered for certification.
    - 3) A list of the incident(s) and date(s) when the final evaluation and previously recommended certification was completed.
  - d. Other Documented Evidence of Continued Certification. When course completion and position task book verification evidence is missing, the certifying officials must also document that the employee was eligible for certification and their decision to continue to certify the employee in the position. In each case, the certifying officials must document their rationale to retain the employee's qualification.
  - e. Yearly updated Incident Qualifications and Certification System Responder Master Record (RPTC028) from IQCS.
3. Decertification. Decertification of an individual's ability to perform is the responsibility of the employing line officer at the Washington Office, region, forest, or district level. Decertification records shall be maintained in the employee development folder (EDF), which is maintained by employee's work supervisor.
  4. Users of the IQCS System must take the IQCS course. Logging into IQCS indicates the user's consent to the Terms of Service for applications hosted by the Bureau of Land Management –Fire and Aviation Directorate. The Terms of Service identifies the conditions of use, privileged access, and commitment to uphold security requirements within IQCS. This includes commitment to adequately protect and not share individual user IDs and passwords. In support of these agreements, all those Agency employees that have authorized access to IQCS shall maintain strict access/security protocol. If they are found in violation of the protocol, their access will be suspended and the following mitigation(s) will apply:

First Violation: The supervisor, certifying official or staff officer shall determine the violation causal factor(s) and develop a mitigation plan of action. Causal factors may include, but not be limited to, inordinate volume of data entry; insufficient authorized staff; inappropriately targeted account holder; insufficient protection of user ID and password; pressure to share access, etc. The plan of action will require total mitigation by the represented unit. Individual access will be reinstated after the plan is completed and submitted to and approved by the Agency IQCS Representative.

Second Violation: Re-evaluation of first violation mitigation. Removal of access until the user completes a review of IQCS "Terms of Service" associated with security responsibilities.

Third Violation: Permanent removal of IQCS access.

## 2.23 POSITION TASK BOOKS

The Position Task Book (PTB) identifies all critical tasks required to perform the job for most standard incident management and prescribed fire positions. Position Task Book Responsibilities are contained within the National Incident Management System Wildland Fire Qualification System Guide, PMS 310-1.

1. An individual may not have more than six active position task books at one time. No more than two of the six allowed position task books may be in a single functional area, including prescribed fire positions. Each separate position in a shared task book will be counted individually. (For example, CRWB/ENGB will be considered as two separate task books). The functional areas include:
  - Command and General Staff
  - Prescribed Fire
  - Operations
  - Air Operations
  - Planning
  - Logistics
  - Finance/Administration
  - Prevention and Investigation
  - Incident Support and Associated Activities (examples includes Expanded Dispatch or Wildland Fire Investigation).
2. In a few instances, agency or interagency position task books have been developed for positions outside those identified in PMS 310-1. Where these PTBs exist and have a Forest Service Logo on the front page, they shall be used to complete performance evaluations. The PTBs will be reviewed for qualification using the same procedures as those sponsored by NWCG.
3. For positions that do not have a position task book, the Forest Qualification Review Committee shall review and recommend to the certifying official an individual's certification and qualification, based on objective factors such as performance evaluations and visual observation of satisfactory performance of position duties.

## 2.24 CURRENCY REQUIREMENTS

1. Currency requirements are contained in PMS 310-1. Currency requirements for air operations positions may also be met by performing on a day-to-day basis or on special projects, such as aerial spraying, search and rescue, and aerial ignition on prescribed burns. The day-to-day operational standards for these positions are governed by the procedures outlined in the Interagency Helicopter Operations Guide (IHOG).

Currency requirements for Security Manager (SECM) and for Security Specialist Type 1 (SEC1) may also be met by employment in good standing as a Forest Service Criminal Investigator or Law Enforcement Officer performing security and law enforcement work.

The day-to-day operational standards for these positions are governed by the procedures outlined in FSM 5300 and FSH 5309.11 and must be followed in order to meet the currency standard. Such law enforcement personnel meeting these currency requirements shall be identified as provided for in FSH 5109.17, Zero Code, Section 04.1-2 and Section 04.3- 3.

2. Position experience is considered as qualifying only if the individual has previously met all prerequisite experience requirements for the position assignment.
3. If a position currency on an individual's Qualifications Card expires while they are performing that position on an assignment, the individual shall be allowed to complete the assignment. However, they shall not be reassigned in any expired position by the incident or home unit until they have re-established currency through the FQRC for that position.

## **2.25 RECERTIFICATION**

Management evaluation of an individual's competency is key to recertification where qualifications have expired.

If currency has lapsed, the individual shall revert to the trainee level in the position for which currency has lapsed and shall be issued a position task book for the position, complete on-the-job-training if needed, complete any additional required training courses which have been added to the position for which they are attempting to recertify and requalify in the related position performance assignment. This does NOT tier down to the lowest level.

## **2.26 DECERTIFICATION**

The decertification procedures in this section are intended to ensure safe and effective individual performance in assigned ICS, Wildfire Skill, Technical Specialist, and Prescribed Fire Skill positions. These procedures are also intended to provide supervisors and managers with an additional mechanism to ensure employee safety.

Decertification is the process of removing or reducing an individual's fire suppression and/or prescribed fire management position(s) qualifications. Decertification is not an adverse action; an employee may be recertified according to the procedures set out in section 2.25.

1. Performance Issues Outside Fire Suppression and Prescribed Fire Management. Different procedures are utilized to address individual performance issues in areas other than fire suppression and prescribed fire management. Refer to Agency Human Resources Policy.

2. Causes for Decertification. There are three causes for losing certification:
  - a. An employee who currently holds a certification does not meet the currency requirements as specified by this Guide.
  - b. An employee voluntarily surrenders the employee's certification of qualifications or requests to be qualified at a lower level of responsibility.
  - c. As an individual or a member of a crew, incident management team, or prescribed fire team, an employee performs actions that violate recognized standard operational procedures or identified safety procedures that are determined to have been instrumental in the endangerment of fire management personnel or the public.

Examples of instances that may warrant decertification include:

- 1) Deliberately disregarding identified safe practices.
  - 2) Taking insubordinate actions that lead to unsafe conditions.
  - 3) Intentionally misrepresenting fire qualifications.
  - 4) Ignoring prescriptive parameters identified in approved burn plans.
3. Performance Evaluation and Documentation. Performance of personnel shall be evaluated on each incident. The Forest Service shall utilize the adopted interagency team and individual performance rating forms (or recognized equivalent) when evaluating the performance of individuals.

All actions that violate established safety procedures shall be documented; associated deficient performance evaluations must also be completed. Performance reviews, especially those that trigger consideration of decertification, shall be coordinated and tracked.

4. Responsibility for Performance Evaluation and Decertification.
  - a. Incident Commander. The incident commander and local unit manager are responsible for providing oversight of the initial performance review process. Inherent within the authority delegated to all incident commanders is the responsibility to relieve from assignment and demobilize any personnel for safety violations. Incident Commanders, however, do not have the authority to decertify individuals. Incident Commanders are responsible for providing documented reasons for relieving an individual, forwarding the information to the individual's home unit, and including a copy of the individual's performance rating in the documentation package.
  - b. Unit Fire Program Manager. The Unit Fire Program Manager at the home unit is responsible for initiating an administrative review to determine if decertification is appropriate.

Any decision to decertify an individual should include a determination of whether remedial actions are appropriate to recertify the individual and a description of the recommended remedial actions.

During an evaluation of decertification, individual qualifications may be temporarily suspended. Judgments about qualifications can be made through expert mentoring, independent assessment, or the line officer's judgment relating to the individual's performance capabilities.

- c. Washington Office, Regional and Forest Qualification Review Committee. The Washington Office, Regional Office, and Forest Qualification review committees are a key component in the certification and decertification of individuals. Qualification review committees should operate according to procedures delineated in other sections of this handbook and in FSM 5120. Qualification Review Committees shall review individual qualifications and certification and shall address and recommend to the certifying official decertification for anyone they have reviewed for certification. If the review occurs at the forest level, the individual reviewed shall have appeal rights with the Regional Qualification Review Committee. If the review occurs at the regional level, the individual reviewed shall have appeal rights with the Washington Office Qualification Review Committee.
5. Individuals Relieved from Fire Assignment. Individuals who have been relieved from an assignment shall not be reassigned to any incident until the certifying official approves the suitability of the individual to perform the duties associated with the qualifications for the position.
6. Interagency Teams. Interagency teams or groups fall outside Forest Service authority. These teams or groups function and operate at the sole discretion of the chartering group. Teams or groups may be formed, disbanded, held in abeyance, or re-formed at the discretion of the appropriate level of the chartering interagency group, according to applicable standards for each team. Examples of these interagency teams or groups are:
  - a. Area Command teams chartered and formed by the National Multi-Agency Coordinating Group.
  - b. National Type 1 teams chartered by geographic area coordinating groups.
  - c. Area Type 2 teams chartered by geographic area coordinating groups or by an individual sub-geographic area group.
7. Crews. Type 1 crews are decertified according to procedures outlined in the Standards for IHC Operations (SIHCO). Type 2 or Type 2 IA crews are decertified on a geographic or sub-geographic area basis.

## **2.3 PHYSICAL FITNESS STANDARDS AND DEFINITIONS**

Minimum physical fitness standards for positions are contained within the PMS 310-1. Fitness standards for technical specialist positions can be found in the Federal Wildland Fire Qualifications Supplement to NWCG PMS 310-1.

## **2.31 PHYSICAL FITNESS REQUIREMENTS**

Requirements for physical fitness are identified as arduous, moderate, light, and none required.

Reference the National Incident Management System Wildland Fire Qualification System Guide, PMS 310-1 for descriptions.

Personnel taking the work capacity test (WCT) will only complete the level of testing (pack, field, walk) required by the highest fitness level identified for a position on their incident qualification card. To further clarify, employees shall not take the WCT unless they have an incident qualification that requires it, and only at the fitness level required by that position as identified in this document.

The WCT is valid for 13 months.

For any position assigned to the fireline for non-suppression tasks, the required physical fitness level shall be “Light”. Visitors to the line are not “assigned to the line for non-suppression tasks” and therefore are subject to incident commander discretion and/or the guidelines as addressed in “Visits to the Fireline”, “Non-Escorted Visits” and/or “Escorted Visits” in the Interagency Standards for Fire and Fire Aviation Operations (Red Book), if applicable.

## **2.32 PHYSICAL FITNESS MEASUREMENT**

The work capacity test is the physical fitness measurement recognized by the Forest Service. The WCT Administrator must follow all requirements outlined in the WCT Administrators Guide. An AED and Emergency Medical personnel must be present at the test site. Unit Fire Management is responsible for ensuring this occurs.

## **2.33 FITNESS DEVELOPMENT**

Fire personnel required to meet the arduous level for their assigned wildland fire positions shall be provided official time for rigorous exercise to prepare for and maintain the arduous level:

1. Fire funded employees (assigned to fire crews and identified in the Fire Management Action Plan) shall be allowed up to 5 hours per week of physical training when not engaged in wildland fire operations.
2. Employees not funded by fire shall be allowed up to 3 hours per week of physical training, consistent with the local wellness programs. The applicable time is up to 6 months prior to scheduled testing and after passing the test, until the end of the proclaimed fire season. Fire program funds may be used for approved physical training time based on guaranteed availability for fire-related assignments.

The employees and their supervisors shall discuss and schedule opportunities during the work week for fitness activities.

## 2.4 MEDICAL STANDARDS

All arduous duty fire positions are required to meet Federal Interagency Wildland Firefighter Medical Standards. These basic Standards are the same for Forest Service and Department of Interior wildland fire personnel with arduous duties. The Standards establish the minimum levels of medical fitness for arduous duty that the agency has determined to be necessary for the safe and efficient performance of the job based on **5 CFR Part 339 Medical Qualifications Determinations**. Each of the medical qualification standards listed in this document is subject to clinical interpretation by the agency reviewing medical officer. Listed with the standards are examples of medical conditions and/or physical impairments that MAY be found to be disqualifying. Assessments will be made on a case-by-case basis to determine the individual's ability to meet the medical qualification standards. The Standards can be found at: [https://www.fs.fed.us/fire/safety/wct/fs\\_version\\_ms.pdf](https://www.fs.fed.us/fire/safety/wct/fs_version_ms.pdf) or [https://www.nifc.gov/medical\\_standards/wf/index.html](https://www.nifc.gov/medical_standards/wf/index.html).

## 2.5 MEDICAL QUALIFICATIONS PROGRAM

All fire personnel with a fitness level requirement of LIGHT, MODERATE, OR ARDUOUS must complete medical screening and be determined to be medically qualified by the agency reviewing medical officer prior to taking any level of the Work Capacity Test (WCT). The current medical screening process as well as the future arduous medical screening process are described in the WCT Implementation Guide found at [https://www.fs.fed.us/fire/safety/wct/wct\\_index.html](https://www.fs.fed.us/fire/safety/wct/wct_index.html).

**Each individual is responsible for their own physical condition and health. No amount of health screening or medical examination can absolutely ensure an individual's safety during a work capacity test or fire management activities.**

## 2.6 INCIDENT QUALIFICATION CARD

### 2.6.1 PMS 310-3, INCIDENT QUALIFICATION CARD SIGNING AUTHORITY

Signing Authority for Incident Response Qualifications Cards resides in the FSH 5109.17, Zero Code, 04-Responsibility.

Certification and documentation requirements must be met prior to signature of Form PMS 310-3, Incident Qualification Card.

Qualification and certification of employees shall be performed by the "hosting" Forest which mobilizes the employee. This includes employees in the Information Services Organization (ISO), Albuquerque Service Center (ASC), Research Stations, Law Enforcement and Investigations, Job Corps Civilian Conservation Centers and so forth.

For further direction on delegations of authority and responsibility for positions in the Fire and Aviation Management Program, see FSM 1230 and FSM 5100.

Incident Qualifications Card expiration dates:

- a. Positions requiring work capacity tests (WCT) are valid through the fitness expiration date listed on the card (13 months).
- b. Positions not requiring WCT for issuance are valid for 13 months from the date the card was signed by a certifying official.
- c. Positions requiring the annual RT-130 as identified in Chapter 2, part 1 and 2, are valid through the training expiration date listed on the card.

## **2.7 POSITION QUALIFICATIONS**

### **2.71 NWCG POSITIONS**

The NWCG Operations and Training Committee (OTC) have established minimum position qualification standards for four of the position categories: Incident Command System, Wildland Fire, Incident Support, and Associated Activities. Those minimum standards are contained within the PMS 310-1.

Chapter 2, part 1, Exhibit 01 provides the minimum position standards contained within the PMS 310-1, as well as the Forest Service supplement including training requirements, experience, physical requirements, and other positions meeting currency requirements for the four position categories.

#### **Technical Specialists**

Technical Specialists are personnel with specialized skills gained through educational degree programs or industry training of established standards. These personnel may perform the same duties during an incident that they perform in their regular job and may have supplemental training in order to use their specialized skills in the incident environment.

Although position codes have been assigned to Technical Specialist positions that can be used within the ICS, no minimum qualifications have been established by NWCG. Standards for Technical Specialist qualifications are Agency determined.

Federal agencies have consolidated minimum standards and information for frequently used positions not included in this guide. A link to the [\*Federal Wildland Fire Qualifications Supplement\*](#) is located on the IQCS home page at <http://iqcsweb.nwcg.gov/>.

Chapter 2, part 2 of the Forest Service Fire and Aviation Qualifications Guide will be eliminated and position qualifications requirements will be reflected in this Interagency Qualifications Supplement document.

For titles and position codes of identified Technical Specialists, see the [IQCS](#) website.
