Assistance Requested

Request USFS and DOI provide resources for firefighting operations for State/Territory/Tribe in support of FEMA response operations.

Statement of Work

As requested by State/Territory/Tribe and in coordination with FEMA, US Forest Service (USFS) and DOI will provide firefighting resources including engines, tenders, crews, other firefighting and support equipment necessary to provide/support structural and wildland firefighting operations in the disaster area in support of FEMA response operations. This includes deploying an incident management team to coordinate and support firefighting activities.

If authorized by FEMA, USFS will establish a Base Camp to provide lodging, meals, and support for firefighting and command/control personnel and equipment. This will be provided in lieu of per diem and under a separate mission assignment.

Utilize USFS, DOI, other Federal agency and State/local resources under existing agreement, as appropriate.

Utilization of USFS, DOI, and other agency resources does not preclude use of international assets as coordinated with FEMA.

USFS is responsible for providing personnel and/or equipment necessary to accomplish the mission.

All purchases and expenditures must be coordinated with FEMA. Prior approval, from the Federal Approving Official (FAO), is necessary to ensure reimbursement. Agencies will be reimbursed for all eligible expenses pursuant to 44 CFR 206.8, "Reimbursement of Other Federal Agencies."

Mission Assignment Task Orders (MATOs) may be issued for specific personnel, requirements, locations, dates, and duration of assignments.

The mission-assigned agency is responsible for ensuring that all activity is properly authorized, goods are received, services are provided, and that costs are reasonable and supported by documentation maintained by the respective agencies.

PSMA Cost Based On

Total item cost includes daily cost for (7) days plus mobilization/demobilization cost.

PSMA Supporting Info/Notes

Report to _____ (location) at _____ (date, time)
 Identified Response Area _____ (general description, such as "The xxx Fire" or "City of xxx")
 Local Incident Commander or Fire Department point-of-contact _____ (name)

USFS and DOI will activate and deploy firefighting resources with the equipment necessary to support structural and/or wildland firefighting operations in disaster area. Resources to be deployed may include:

- 1 - T1 incident management team (may be T2 if no T1 IMTs are available)
- 3 - T1/T2 Engine Strike Teams
- 3 - T3/T4/T5/T6 Engine Strike Teams
- 1 - Water Tender Strike Team
- 1 - T1/T2 Hand Crew
- 60 - Structure Firefighters
- 1 - Type 3 Helicopter with Helicopter Manager

Additional information:
 Under this task, the local Incident Commander or Fire Department may assign firefighting resources within the identified response area to:
 support firefighting operations at individual fires;
 support firefighting operations in an area with multiple fires; and/or
 provide fire protection services (as identified in the Statement of Work of the MA) in an area where fire protection is unavailable or

insufficient.

Any response outside of the identified response area requires a modification to this task or a new MATO.

Notice:

Disclaimer: Total estimated costs are for planning purposes only and are subject to change.

Federal agencies will be reimbursed only for actual eligible costs incurred.
