Assistance Requested

Request USFS and DOI preposition resources for emergency road clearing in support of FEMA response operations.

Statement of Work

As directed by and in coordination with FEMA, US Forest Service (USFS) will pre-position wildland firefighter handcrews (or equivalent configuration) with the equipment necessary to clear fallen trees, brush and debris from roads to facilitate emergency access in disaster area in support of FEMA response operations. This includes prepositioning an incident management team to coordinate and support road clearing activities.

If authorized by FEMA, USFS will establish a Base Camp to provide lodging, meals, and support for firefighting and command/control personnel and equipment. This will be provided in lieu of per diem and under a separate mission assignment.

Utilize USFS, DOI, other Federal agency and State/local resources under existing agreement, as appropriate.

USFS is responsible for providing personnel and/or equipment necessary to accomplish the mission.

All purchases and expenditures must be coordinated with FEMA. Prior approval, from the Federal Approving Official (FAO), is necessary to ensure reimbursement. Agencies will be reimbursed for all eligible expenses pursuant to 44 CFR 206.8, "Reimbursement of Other Federal Agencies."

Mission Assignment Task Orders (MATOs) may be issued for specific personnel, requirements, locations, dates, and duration of assignments.

The mission-assigned agency is responsible for ensuring that all activity is properly authorized, goods are received, services are provided, and that costs are reasonable and supported by documentation maintained by the respective agencies.
