Smokey Bear Pumpkin Carving Stencil Sheet

Directions:

1. Cut out the black shapes from the stencil sheet using a precision utility knife.
2. Once the shapes are cut out, tape the stencil sheet onto your pumpkin.
3. Then, use a fine-line permanent marker to color the shape "holes" onto your pumpkin.
4. Carve out these pieces from your pumpkin.
5. Consider a flameless light option for your pumpkin. Never leave a lit pumpkin unattended, and extinguish before leaving the area.

Smokey Bear is a protected symbol. These stencils are intended solely for personal use; making commercial products with, or otherwise selling this likeness, is prohibited.
