ENFORCEMENT PLAN

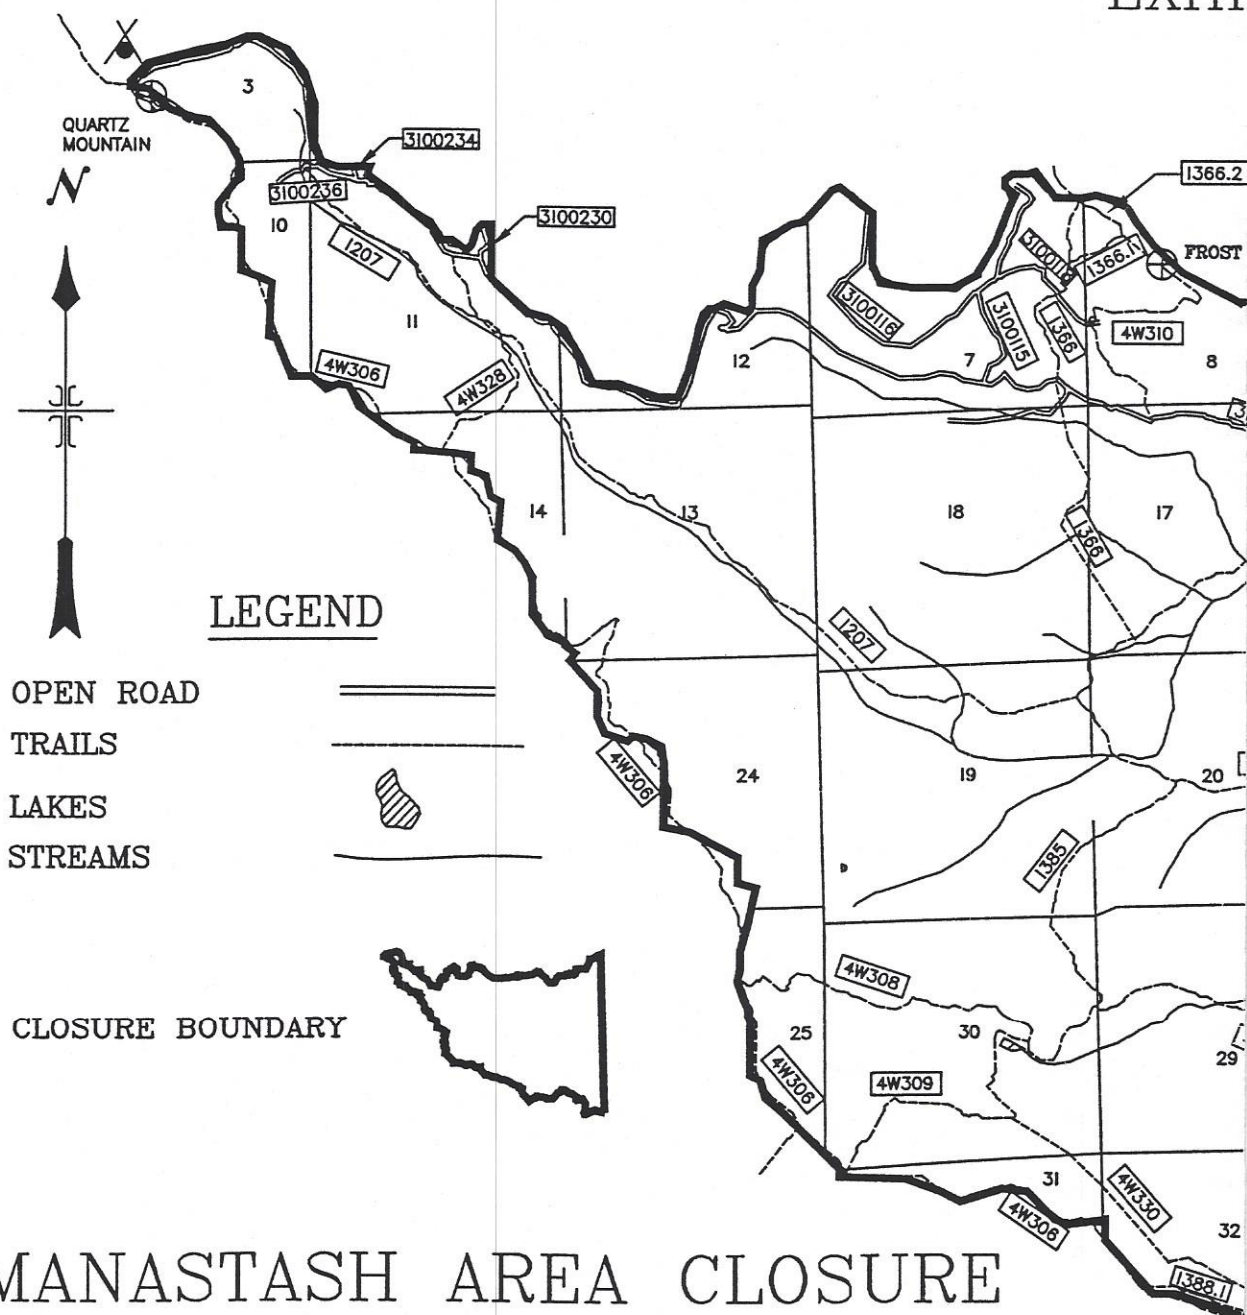

MANASTASH AREA CLOSURE

This plan is for the restriction order for the Manastash Creek Drainage, which prohibits cross country travel by motor vehicles.

This order will mostly be enforced on an "as observed" system of enforcement. Due to Washington State funding of the ORV rangers, it will be possible to put more emphasis into violation compliance than would normally be expected on other portions of this District.

1. All normal entry points into the closure area will be posted with the closure order, map and reasons for the closure. All campgrounds within or adjacent to the closure area will also be posted with the same information. A special news release will be included in the Cle Elum recreation report.
2. All roads and trails that will be open to use by motor vehicles will be identified by a "Green Diamond" mounted on a post at each intersection. They will also be identified by numbers that correspond to the numbers shown on Exhibit 1. Trail markers will also have symbols that show what use is permitted on that trail.
3. Authorized Forest Officers may, upon observing violations of this Order, issue a Notice of Violation.
4. Warnings are suitable when the Officer is certain that the individual(s) involved is unaware of the restrictions.
