PURPOSE AND CONTENTS **OF THIS MAP**

The designations shown on this motor vehicle use map

It is the responsibility of the user to acquire the current MVUM. This MVUM shows the National Forest System roads, National Forest System trails, and the areas on National Forest System lands in the Chippewa National Forest that are designated for motor vehicle use pursuant to 36 CFR 212.51. This MVUM also identifies the vehicle classes allowed on each route and in each area; and any seasonal restrictions that apply on those routes and in

Designation of a road, trail, or area for motor vehicle use by a particular class of vehicle under 36 CFR 212.51 should not be interpreted as encouraging or inviting use or implying that the road, trail, or area is passable, actively maintained, or safe for travel. Motor vehicle designations include parking along designated routes and at facilities associated with designated routes when it is safe to do so and when not causing damage to National Forest System resources. Seasonal weather conditions and natural events may render designated roads and trails impassable for extended periods. Designated areas may contain dangerous or impassable terrain. Many designated roads and trails may be passable only by high-clearance vehicles or four-wheel-drive vehicles. Maintenance of designated

roads and trails will depend on available resources, and many may receive little maintenance. This motor vehicle use map identifies those roads, trail and areas designated for the motor vehicle use under 36 CFR 212.51 for the purpose of enforcing the prohibition a 36 CFR 261.13. This is a limited purpose. The other public roads are shown for information and navigation
